PORTFOLIO

- OMV AG. Austria Vienna (oil & gas)
 - ESG Sustainability Integrated Reporting 2009 -2012
 - LOCAL CAPACITY BUILDING & CSR community investments - Austria, Romania, Turkey (more than 30 community projects) between 2010 – 2014
- UNIQUE -U: Based in Potsdam, Germany, started BIA in 2021 and became B CORP Certified early 2022. The company is creating learning and coaching programs for people in career crisis, helping them develop and grow in a sustainable way.
 - During the B Impact Assessment (BIA) work, together with company owner, I helped develop a new mission and vision, employees onboarding procedure, energy saving policy, employees booklet and the first impact report with committed impact goals in 2022.
- ULOO AG: Based in Vienna, started BIA in 2021 and became B CORP Certified early 2022. The company is a tech and education business that developed the first team building app for companies to use during remote work times.
 - During BIA work, I helped to the development of a new mission and vision plus setting up impact goals, a new remote stewardship policy, an employee booklet and a supplier evaluation policy where social and environmental targets were included for the first time.
- PROMATERIS SA: Based in Bucharest, started the BIA in 2022, still ongoing. The company employes 5000 people and has revenues of ~32 Mio EUR in 2021/22. It is the first company in Romania who produces bio compostable plastic used for industrial and consumer use. The production process is developed based on innovation and research.
 - During the BIA work I have helped the company to develop a new mission and vision statement and we are currently looking at social and environmental KPIs for the management structure and board of directors.

- IMPACTERS UK: Based in London, started BIA in autumn 2022 and is ready for submitting it this month, March 2023. The company is a sustainability marketing consultancy, created for entrepreneurs in the sustainability area, working with UN organizations and private companies.
 - During the BIA work, I helped redo the mission and vision statement, a energy reduction procedure, a supplier selection procedure where clients are evaluated based on social and environmental impact targets.
- ZANGEZUR COPPER AND MOLYBDENUM COMBINE based in Zangezur, Armenia
 - 2021 ESG Sustainability Reporting (1st digital sustainability focus report in the 56 years of company history) done with support of local team in Armenia
 - The company used it to call for new investors on board for complete technologization and automation of the mining activities (+5000 employees; 691 Mio USD net sales).
- RUDHOLM & HAAK based in Boras, Sweden
 - 2022 ESG Reporting (1st sustainability focused report since inception of the company)
 - Defined the stakeholder strategy, expand the business model (digital labelling for big fashion brands), emissions and energy measurement and disclosure. (3 Operation branches Bangladesh, Vietnam, Hong Kong, HQ in Sweden)
- EVOLVT - based in Copenhagen, Denmark
 - 2021 Sustainability Strategy combined with SDGs and Impact measurement workshops to develop their responsibility roadmap for business expansion (electrical vehicles and digital mobility software)
- SOLVED Cleantech based in Helsinki, Finland
 - Supporting the revamp of the sustainability strategy for their client, ENERGIESTEIERMARK Austria and defining their final impact goals and measurement in 2020.
 - Performing the project review for their client, The Planet Company Finland/ USA and development of their app, the "GOOD ACTS" TOOL, between 2018 – 2021
- Mana Foods based in Bucharest, Romania
 - They have produced the 1st 3D food printer in 2020 – REEBO- for cakes & sandwiches produced in less than 3 minutes – now they have started a new operation as food pills for military and space industry since 2021/22
 - Developed with them the SDG action plan for 2021 and sustainability reporting

Starting April & Mai, June 2023

- GLACIER AG: Based in Vienna, the company is in tech -education field, producing the first Climate Academy Learning for entrepreneurs in Austria. They are looking forward to start measuring and improving their impact and become B Corp Certified.
- REAVIS Slovakia: is one of the biggest work space rental companies, with multiple locations in Europe, currently working on a transition to Net Zero. They are very interested to begin the B Corp Certification process and reach the end by 24/25.
- VERDINO SA: Based in Bucharest the company is one of the biggest producers of vegetarian and vegan food based on a special patented recipe and it's the recipient of many international awards especially on the German food market. Looking into the B Corp Certification, mainly driven by their outside partner, also a B Corp.
